Department of Economic and Social Affairs

The Department of Economic and Social Affairs of the United Nations is a vital interface between global policies in the economic, social and environmental spheres and national action. The Department works in three main interlinked areas: (i) it compiles, generates and analyses a wide range of economic, social and environmental data and information on which United Nations Member States draw to review common problems and to take stock of policy options; (ii) it facilitates the negotiations of Member States in many intergovernmental bodies on joint courses of action to address ongoing or emerging global challenges; and (iii) it advises interested Governments on the ways and means of translating policy frameworks developed in United Nations conferences and summits into programmes at the country level and, through technical assistance, helps build national capacities.

Note

The designations employed and the presentation of the material in the present publication do not imply the expression of any opinion whatsoever on the part of the United Nations concerning the legal status of any country or of its authorities, or the delimitations of its frontiers. The term “country” as used in this report also refers, as appropriate, to territories or areas. The designations of country groups are intended solely for statistical or analytical convenience and do not necessarily express a judgement about the stage reached by a particular country, territory or area in the development process. Mention of the names of firms and commercial products does not imply endorsement by the United Nations. The symbols of United Nations documents are composed of capital letters and numbers.

INTRODUCTION

This issue of the *Population and Vital Statistics Report* presents data for countries or areas¹ on population size (total, male, and female) from the latest available census, estimated total population size for 2017 or 2018 (the later available year), and the number and rate of vital events (live births, deaths, and infant deaths) for the latest available year within the past 15 years (2004-2018). These data are presented as reported by national statistical authorities to the *Demographic Yearbook* of the Statistics Division of the United Nations Department of Economic and Social Affairs.² This issue also presents population estimates for 2017 and 2018 of the world and its major areas and regions¹. These estimates were prepared by the Population Division of the United Nations Department of Economic and Social Affairs.³ The data described in this paragraph are presented in three tables:

Table 1. Estimated mid-year population by major area and region, 2017 and 2018

Table 2. Population, latest available census and estimates for 2017 or 2018

Table 3. Live births, deaths, and infant deaths, latest available year within the past 15 years (2004-2018)

TECHNICAL NOTES

A. Population

Population estimates for 2017 and 2018 for the world and its major areas and regions (table 1) refer to 1 July of the given year, and are produced by the United Nations Population Division.³

Latest population census figures for countries or areas (table 2) refer to the given date, and are presented as reported by national statistical authorities to the *Demographic Yearbook* of the United Nations Statistics Division. The data are from national population and housing censuses. These censuses use different methods of enumeration: conventional/traditional, based on administrative/population registers, or a combination of methods that may include a sample survey.⁴ The censuses are conducted on either a *de facto* or a *de jure* basis, as indicated in the column "Code." The *de facto* population consists of all persons who are physically present in the country or area at the reference date, whether or not they are usual residents. The *de jure* population consists of all usual residents, whether or not they are present at the time of the enumeration. Population census data are presented for 240 countries or areas that conducted a census during the period 1960-2019.

Mid-year population estimates for 2017 or 2018 for countries or areas (table 2) refer to 1 July of the given year unless otherwise stated, and are presented as reported by national statistical authorities to the *Demographic Yearbook* of the United Nations Statistics Division. They are also coded as either *de jure* or *de facto*, since for some countries or areas the code is not the same as for the census figure.

B. Vital statistics

Table 3 presents data for countries or areas on live births, deaths, and infant deaths (excluding foetal deaths) for the latest available year within the last 15 years (2004-2018). The data usually refer to vital events that *occurred* in the specified year, even if some were registered later. In some countries or areas, however, they refer to events that were *registered* in the specified year, and, therefore, include some events that occurred previously, and exclude some events that occurred in the specified year but that were or will be registered later. In this case, the symbol "+" is displayed in the column "Code."

¹ In table 1 of this report "countries or areas" are grouped geographically into 21 "regions" (for example, Central America), which are then grouped into six "major areas" (for example, Latin America and the Caribbean). In tables 2 and 3 they are listed by six "continents" (for example, North America).

² Data on these and many other demographic statistics are maintained and continuously updated in the *Demographic Yearbook* database. A small selection of demographic statistics are published annually as the *Population and Vital Statistics Report*, and a much larger selection of data, including complementary technical notes, are published annually as the *Demographic Yearbook*. The *Demographic Yearbook* is also available online, at: <http://unstats.un.org/unsd/demographic/products/dyb/default.htm>.

³ United Nations, Department of Economic and Social Affairs, Population Division (2019). *World Population Prospects: The 2019 Revision*.

⁴ If the census method of enumeration is not conventional/traditional, the type of method is indicated in a footnote to the census date in the table.

Most of the vital statistics data presented in table 3 come from national civil registration systems. These systems differ markedly in the completeness of the data that they produce. If the country or area reports to the *Demographic Yearbook* its own estimate of the completeness of its civil registration data, then this estimate is classified in the column "Code" as follows: "C" indicates virtually complete data (that is, representing 90 per cent or more of the events occurring in the specified year); and "U" indicates incomplete data (that is, less than 90 per cent of the events). Data not derived from civil registration - usually official estimates from censuses, sample surveys or demographic analyses - that are assumed reliable are indicated by "|".

The table shows both the number of vital events and the rates at which they occur. *Crude birth and death rates* are the number of live births and (total) deaths, respectively, per thousand persons in the same year. The denominators of these rates are the estimates of mid-year population as reported by national statistical authorities to the *Demographic Yearbook*. The *infant mortality rate* is the number of deaths of persons less than one year of age per thousand live births in the same year. Unless otherwise stated, the rates shown were computed by the United Nations Statistics Division. Rates were only computed when the numerator - the number of vital events - is at least 30 and when the denominator (mid-year population or the number of live births) is available for the same year. Furthermore, rates were computed only if the code for vital events (see the previous paragraph) is "C" or "|".

C. Symbols

The following symbols and notations are used:

...	Data or information not available/rates not computed
-	Magnitude zero
*	Provisional figure
+	Data tabulated by year of registration rather than occurrence
C	Civil registration, estimated 90 per cent or more complete
U	Civil registration, estimated less than 90 per cent complete
	Source other than civil registration, estimated reliable
DF	Population de facto
DJ	Population de jure
SSDF	Sample survey, population de facto
SSDJ	Sample survey, population de jure

D. Highlights

1. Population censuses

One goal of this report is to present the most recent data for total, male, and female population collected by a national population census. In the majority of cases, national population censuses are carried out once every ten years, that is, once every census round. A census round, as defined and implemented by the United Nations, encompasses ten years starting with the fifth year of a decade and ending in the fourth year of the next decade. The 2020 census round started on 1 January 2015 and will end on 31 December 2024, whereas the 2010 census round started on 1 January 2005 and ended on 31 December 2014. Detailed information on planned or conducted national population censuses is collected by the United Nations Statistics Division and presented at: <http://unstats.un.org/unsd/demographic/sources/census>

The latest available census figures for total population (for 1960-2019) are given in this publication for 240 countries or areas, whenever available disaggregated by sex. Of these figures, 52 (22 per cent) refer to the current 2020 round (2015-2024), 167 (70 per cent) refer to the 2010 census rounds (2005-2014), 13 (5 per cent) refer to the 2000 census round (1995-2004), 3 (1 per cent) refer to the 1990 census round (1985-1994), and 5 (2 per cent) refer to the 1980 or previous census rounds.

2. Vital statistics

The main source of vital statistics is civil registration. "Civil registration is defined as the continuous, permanent, compulsory and universal recording of the occurrence and characteristics of vital events pertaining to the population, as provided through decree or regulation in accordance with the legal requirements in each country."⁵ The availability of detailed

⁵ *Principles and Recommendations for a Vital Statistics System, Revision 3*, Sales No.E.13.XVII.10, United Nations, New York, 2014.

vital statistics for a country or area illustrates national capacity in the compilation of these statistics from civil registration systems. This report aims to present the most recent data for the period 2004-2018 on live births, deaths, and infant deaths reported to the *United Nations Demographic Yearbook*.

Out of 240 countries or areas, the latest available figure for live births refers to year 2015 or later for 161 countries or areas (67 per cent); to years 2010-2014 for 35 countries or areas (15 per cent) and to an earlier year for 18 countries or areas (or 7 per cent). No data for live births are available for 26 countries or areas (or 11 per cent) for the period 2004-2018. The availability of data on (total) deaths is similar. However, recent data on infant deaths are somewhat less available: Data of 133 countries or areas (or 55 per cent) refer to years 2015 or later, 27 (or 11 per cent) to 2010-2014, 22 (or 9 per cent) refer to 2009 or earlier years and 58 countries or areas (or 24 per cent) did not report data on infant deaths for the period 2004-2018.

a "Code" indicates the source of data, as follows:

DF De facto

DJ De jure

SSDF Sample survey, de facto

SSDJ Sample survey, de jure

◆ Data refer to 2017

1 Total resident population including common and collective households of nomadic population, and population counted separately.

2 Postcensal estimates.

3 Projections based on the 2013 Population Census.

4 Based on the results of the 2011 Population Census.

5 Data refer to national projections.

6 Source: Population projections and estimates of priority targets for the various health programs and interventions, National Institute of Statistics (2016).

7 Excluding Mayotte.

8 Based on the results of the 2014 Population Census.

9 Estimates based on the results of 2015 population census.

10 Source: The 1984 Population and Housing Census of Ethiopia (Analytical Report at National Level).

11 Projections based on the 2000 quick population count results and 1995, 2002 and 2010 Eritrea Demographic and Health Surveys.

12 Data refer to national projections based on 2007 census.

13 Estimates considering also the results of the 2007 Population Census.

14 Data based on the 2010 Population Census.

15 Population in households only.

16 Post-censal estimates based on the 2009 Population Census.

17 Data refer to Libyan nationals only.

18 Data refer to projections based on the 1993 Population Census.

19 Including nomadic population.

20 Excludes the islands of St. Brandon and Agalega.

21 Data refer to annual average population.

22 Projections based on the results of national survey on population and health conducted between 2010 and 2011, and especially population and housing census 2014.

23 Data are projections based on the 2008 Population and Housing Census.

24 Projections based on the 2012 Population Census.

25 Data refer to Saint Helenian resident population.

26 Data have not been adjusted for underenumeration, estimated at 7 per cent.

27 Comprising the Northern Region (former Saguia el Hamra) and Southern Region (former Rio de Oro).

28 Data refers to resident population adjusted for the undercount of 18 per cent and including the institutional population.

29 Bermuda is 100 per cent urban.

30 Based on the results of the 2016 Population Census.

31 To ensure confidentiality, the values, including totals are randomly rounded either up or down to a multiple of '5' or '10.' As a result, when these data are summed or grouped, the total value may not match the individual values since totals and sub-totals are independently rounded. Similarly, percentages, which are calculated on rounded data, may not necessarily add up to 100%.

32 Adjusted for census net undercoverage (including adjustment for incompletely enumerated Indian reserves).

33 Preliminary postcensal estimates.

34 Excluding the institutional population.

35 Data refer to 31 December.

36 Based on the national household survey of 2018.

37 Population statistics are compiled from registers.

38 Excluding data for Saint Barthélemy and Saint Martin.

39 Data refer to 1 January.

40 Projections based on the 2002 Population Census.

41 Projections produced by l'Institut Haïtien de Statistique et d'Informatique (IHSI) and the Latin American and Caribbean Demographic Centre (CELADE) - Population Division of ECLAC.

-
- 42 The figures represent the census counts adjusted for under-coverage. Adjustments are done by applying weights calculated (to 4 decimal places) for each sex and age group to the enumerated population when the tabulations are produced. Minor discrepancies between totals and the sum of the component parts of a table and minor discrepancies between the totals across tables are due to rounding after weights are applied.
- 43 Including an estimation of 1 334 585 persons corresponding to 448 195 housing units without information of the occupants.
- 44 The population projections of CONAPO (National Population Council).
- 45 Including armed forces stationed in the area.
- 46 Excluding residents of institutions.
- 47 Excluding U.S. Armed Forces overseas and civilian U.S. citizens whose usual place of residence is outside the United States.
- 48 Data include persons in remote areas, military personnel outside the country, merchant seamen at sea, civilian seasonal workers outside the country, and other civilians outside the country, and exclude nomads, foreign military, civilian aliens temporarily in the country, transients on ships and Indian jungle population.
- 49 Data are revised projections taking into consideration also the results of the 2005 census.
- 50 Excludes nomadic Indian tribes.
- 51 Excluding military personnel and their families, visitors and transients.
- 52 A dispute exists between the governments of Argentina and the United Kingdom of Great Britain and Northern Ireland concerning sovereignty over the Falkland Islands (Malvinas).
- 53 Estimates or projections considering also the results of the 2012 Population Census.
- 54 Data have not been adjusted for underenumeration and exclude an estimated population of 1,855,501 at the national level.
- 55 Data refer to 30 June.
- 56 Figures for male and female population do not add up to the figure for total population, because they exclude 108 homeless people of unknown sex.
- 57 Data refer to the settled population based on the 1979 Population Census and the latest household prelisting. The refugees of Afghanistan in Iran, Pakistan, and an estimated 1.5 million nomads, are not included.
- 58 Excluding nomad population.
- 59 Excluding 8408 tourists and foreigners.
- 60 Excluding foreign diplomatic personnel and their dependants.
- 61 For statistical purposes, the data for China do not include those for the Hong Kong Special Administrative Region (Hong Kong SAR), Macao Special Administrative Region (Macao SAR) and Taiwan province of China.
- 62 Data are from Communiqué of the National Bureau of Statistics of the People's Republic of China on Major Figures of the 2010 Population Census (No.1).
- 63 Data have been estimated on the basis of the annual National Sample Survey on Population Changes.
- 64 Data are estimates from sample enquiry.
- 65 Data refer to Hong Kong resident population at the census moment, which covers usual residents and mobile residents. Usual residents refer to two categories of people: (1) Hong Kong permanent residents who had stayed in Hong Kong for at least three months during the six months before or for at least three months during the six months after the census moment, regardless of whether they were in Hong Kong or not at the census moment; and (2) Hong Kong non-permanent residents who were in Hong Kong at the census moment. Mobile Residents, they are Hong Kong permanent residents who had stayed in Hong Kong for at least one month but less than three months during the six months before or for at least one month but less than three months during the six months after the census moment, regardless of whether they were in Hong Kong or not at the census moment.
- 66 Data refer to government controlled areas.
- 67 Includes data for the Indian-held part of Jammu and Kashmir, the final status of which has not yet been determined.
- 68 Data refer to 1 March.
- 69 Data refer to projections based on the 2001 Population Census.
- 70 Data are based on the publication: "Indonesia Population Projection 2015-2045"
- 71 Data refer to the Iranian Year which begins on 21 March and ends on 20 March of the following year.
- 72 Excluding the population in three autonomous provinces in the north of the country.
- 73 Includes data for East Jerusalem and Israeli residents in certain other territories under occupation by Israeli military forces since June 1967.
- 74 Data are rounded for confidentiality reasons.
- 75 Data refer to Israeli citizens and permanent residents who are listed in the Population Register.
- 76 Excluding diplomatic personnel outside the country and foreign military and civilian personnel and their dependants stationed in the area.
- 77 Because of rounding, totals are not in all cases the sum of the respective components.
- 78 Estimates based on the complete counts of the 2015 Population Census.
- 79 Excluding data for Jordanian territory under occupation since June 1967 by Israeli military forces.

80 Data refer to resident population.

81 Source: Living conditions of household survey, October 2011 to September 2012.

82 Data have been adjusted for underenumeration.

83 Estimates based on the adjusted results of the Population and Housing Census of 2010.

84 Data refer to resident population which includes resident Maldivians and resident foreigners.

85 The total for the whole country includes 1,206,353 persons estimated not to have been counted in parts of States of Rakhine, Kachin and Kayin.

86 Data refer to 1 October.

87 Data refer to registered population data from Royal Oman Police.

88 Excluding data for the Pakistan-held part of Jammu and Kashmir, the final status of which has not yet been determined.

89 Figures for male and female may not add up to the total, since they do not include the category "Unknown".

90 Excluding 2134 Filipinos in Philippine Embassies, Consulates and Missions Abroad.

91 Urban and rural breakdown not applicable as Singapore is a city-state.

92 Data are based on the latest register-based population estimates for 2010.

93 Data refer to resident population which comprises Singapore citizens and permanent residents.

94 Data refer to total population, which comprises Singapore residents and non-residents.

95 Data exclude residents who have been away from Singapore for a continuous period of 12 months or longer as at the reference date.

96 Including Palestinian refugees.

97 Based on a sample taken at the time of census.

98 Data based on address-based population registration system.

99 Data include non-national population.

100 Data are adjusted according to the results of the 2009 census and 2014 intercensus.

101 Statistics are compiled from registers.

102 Excluding Faeroe Islands and Greenland shown separately, if available.

103 Excluding diplomatic personnel outside the country and including members of alien armed forces not living in military camps and foreign diplomatic personnel not living in embassies or consulates.

104 Excluding military personnel, visitors and transients.

105 Data refer to 31 March.

106 Data refer to the Vatican City State.

107 The population figure is 466 persons.

108 Data refer to usually resident population.

109 Data refer to registered resident population.

110 Data refer to 30 April.

111 Including civilian nationals temporarily outside the country.

112 Data refer to resident population only.

113 Including residents temporarily outside the country.

114 Tiraspol, Bender, Slobozia, Ribnita, Camenca Yrigoricpol/Grigoriopol are districts from Transnistria where the census was not conducted.

115 Data refer to usual resident population based on the 2014 Census. Tiraspol, Bender, Slobozia, Ribnita, Camenca Yrigoricpol/Grigoriopol are districts from Transnistria where the 2014 census was not conducted.

116 Excluding Transnistria and the municipality of Bender.

117 Excludes data for Kosovo and Metohia.

118 Inhabited only during the winter season. The Norwegian population of these islands is included also in the de jure population of Norway.

119 Data refer to legal resident population.

120 The Government of Ukraine has informed the United Nations that it is not in a position to provide statistical data concerning the Autonomous Republic of Crimea and the city of Sevastopol.

121 Excluding Channel Islands (Guernsey and Jersey) and Isle of Man, shown separately, if available.

122 These data have been randomly rounded to protect confidentiality. Individual figures may not add up to totals, and values for the same data may vary in different tables.

123 Including population in off-shore, migratory and shipping.

124 Excluding Niue, shown separately, which is part of Cook Islands, but because of remoteness is administered separately.

125 Based on the 2010 Population and Housing Census and 2013/2014 Household Income and Expenditure Survey.

126 Data include overseas visitors in New Zealand on census night.

127 Intercensal estimates.

128 Data have not been adjusted for underenumeration.

129 Projections based on adjusted 2009 census counts.

NOTES

- ... Data not available
- Magnitude zero
- * Provisional

italic Data from civil registers that are incomplete or of unknown completeness

a "Code" indicates the source of data, as follows:

C Civil registration, estimated at least 90% complete

U Civil registration, estimated less than 90% complete

| Other source, estimated reliable

+ Events are counted when registered, not when they occurred.

... Information not available

- 1 Excluding live-born infants who died before their birth was registered.
- 2 Data refer to Algerian population only.
- 3 Data refer to the 12 months preceding the census in May.
- 4 Data are projections presented in *Annuaire Statistique 2010*.
- 5 Source: Vital Statistics Report.
- 6 Data refer to national projections.
- 7 Data refer to the 12 months preceding the census in December.
