

GOAL 12

Indicators

12.5.1

12.7.1

Indicator 12.5.1 – Definitions

12.5.1 National recycling rate, tons of material recycled

.Recycling rate of MSW (% of total MSW generated that is recycled as materials or as organic products),
The WasteAware ISWM benchmark indicators

.Waste Captured by the System (% of MSW generated that is handled completely by the waste management and recycling system), The WasteAware ISWM benchmark indicators, this is more for waste collection (before recycling)

Methodology – Timeframe - Agencies

Methodology

- Overall recycling across sectors and total tons of material recycled do not actually indicate progress towards the target 12.5.1 to "substantially reduce waste generation through prevention, reduction, recycling and reuse" .
- It may be better to work on a better indicator for this target.
- Focussing on disaggregation by sectors would be an initial requirements by countries, and this is consistent with what is being done in the regions where this is being implemented.

Time Frame 2018

Agencies Inter-agency collaboration

Indicator 12.7.1 – Definitions

Number of countries implementing sustainable public procurement policies and action plans

- Definition and criteria to be developed based on the results of the Global Review of Sustainable Public Procurement (SPP) Survey on SPP implementation
- Possible elements of definition: SPP criteria developed for product groups, procurers trained, the legal framework includes SPP provisions, the policy and action plans exist and are reviewed, civil servants in charge of implementing the policy, etc.

Methodology – Timeframe - Agencies

Methodology

- Global Public Procurement Focal Points Working Group to oversee the 2016 issue of the Global Review of Sustainable Public Procurement Survey on SPP implementation - Assessment on the level of SPP implementation among member states
- 55 countries filling out the Survey
- Criteria to be developed for cut off and objective based on the results of the Survey

Time Frame

- end of 2017

Agencies

- ICLEI-Local Governments for Sustainability, KEITI, IEc, EIB, 10YFP SPP Multi-Stakeholder Advisory Committee (MAC)

Goal 12 Conclusions

- 12.5.1 Development of a more robust indicator
- 12.7.1 Deliver according to Work plan proposed
