## Progress Assessment

# SDG Report Card

2024

## Where we stand-- Goals under Review:

**An additional 23 million people** were pushed into extreme poverty in 2022 compared to 2019.

**Over 100 million more** were suffering from hunger in 2022 compared to 2019.

**\$1.5 trillion in fossil fuel subsidies** in 2022- a historic high.

**120 million forcibly displaced persons**, 50% more than 4 years ago and **almost double the level of 2015**.

**\$4 trillion** annual financing gaps to achieve the SDGs.

# SDG Report Card

2030

If trends continue, by 2030:

**590 million people** may still live in extreme poverty and **fewer than 3 in 10 countries** are expected to halve national poverty.

**1 in 5 children** under age 5 will be affected by **stunting**.

**110% more fossil fuels** will be produced than would be consistent with limiting warming to 1.5°C.

**2 billion people** will still live without safely managed drinking water, **3 billion** without safely managed sanitation and **1.4 billion** without basic hygiene services.

**660 million people** will still lack electricity access and around **1.8 billion** will go without clean cooking fuels and technologies.

# SDG Report Card

2030

However, SDG progress already happening can help turn this around:

Central and Southern Asia **reduced working poverty by 46%** between 2015 and 2023.

**134 countries** had already met the reducing child mortality target and **7 more were on track in 2022**.

**Gender parity** in managerial roles in sub-Saharan Africa has **improved more than 40%** since 2000.

Global unemployment **hit a historic low of 5%** in 2023.

**\$100 billion annual climate finance** commitment to developing countries **was met** for the first time in 2022.

Marine protected area coverage **has increased more than tenfold** from 2000 to 2024.
