

2030 Agenda in Latin America and the Caribbean

Regional knowledge platform for the Sustainable Development Goals

<https://agenda2030lac.org/en>

THIS PLATFORM IS A COLLABORATIVE DEVELOPMENT BY THE UNITED NATIONS DEVELOPMENT SYSTEM OPERATING AT THE REGIONAL LEVEL

It responds to the Recommendation #2 and #4 of the Secretary General of the United Nations to present transformative proposals for the establishment of regional knowledge management hubs to deliver on the heightened demands of the 2030 Agenda.

Report of the Secretary-General to the General Assembly “Implementation of General Assembly resolution 71/243 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system, 2019” (A/74/73–E/2019/14 (15 April 2019))

Virtual side event on the margins of the
2020 high-level political forum for sustainable development

The 2030 Agenda for Sustainable Development in the new global and regional context: scenarios and projections in the current crisis in Latin America and the Caribbean

The Economic Commission for Latin America and the Caribbean (ECLAC) and the Permanent Mission of Mexico to the United Nations are pleased to invite government representatives and other stakeholders to participate in a side event to engage in an interactive dialogue to take stock of the socioeconomic impacts of the coronavirus disease (COVID-19) pandemic in Latin America and the Caribbean. In light of the COVID-19 Observatory and the SDG Gateway, and to analyse policy responses to accelerate the region's efforts to build back better while making progress towards the achievement of the 17 Sustainable Development Goals (SDGs) as we enter the Decade of Action.

When:

Friday, 10 July 2020, 8-9 a.m.
(New York time)

FAO

Food and Agriculture Organization

FAO works with the countries of Latin America and the Caribbean to implement the Hand in Hand Initiative, to create poverty eradication strategies for the most underdeveloped territories, also participating in the Alliance to Eliminate Rural Poverty (SG1). To eradicate hunger, FAO supports the Parliamentary Fronts Against Hunger, school feeding programs and sustainable food supply systems (SDG2).

FAO also helps to streamline gender policies and programs to improve women's food security and access to land and productive resources (SDG5). The Organization helps countries to monitor drought and improve their use of water in agriculture (SDG6). FAO is working with partners to create synergies between social protection and productive programs (SDG10). FAO strongly promotes innovation and digitalization in agriculture (SDG9) and the reduction of food waste and losses (SDG12).

The Organization also promotes climate resilient practices, low-carbon livestock and climate-smart agricultural practices for smallholder farmers, disaster risk monitoring and early warning systems (SDG13). FAO is helping countries to create programs for the mayor international funds to fight climate change, such as the Green Climate Fund, supporting countries' efforts to fight deforestation and reduce greenhouse gas emissions (SDG13). We also promote government's efforts to fight illegal, unreported and unregulated fishing (SDG14), improve their protected areas in the Amazon basin, create soil carbon maps and reduce illegal logging (SDG15).

GOAL 7

Ensure access to affordable, reliable, sustainable and modern energy for all

TARGET 7.1 By 2030, ensure universal access to affordable, reliable and modern energy services

INDICATOR 7.1.1 Proportion of population with access to electricity

Proportion of population with access to electricity, by urban/rural (%) EG_ELC_ACCS

INDICATOR 7.1.2 Proportion of population with primary reliance on clean fuels and technology

Proportion of population with primary reliance on clean fuels and technology (%) EG_EGY_CLEAN

TARGET 7.2 By 2030, increase substantially the share of renewable energy in the global energy mix

INDICATOR 7.2.1 Renewable energy share in the total final energy consumption

Renewable energy share in the total final energy consumption (%) EG_FEC_RNEW

TARGET 7.3 By 2030, double the global rate of improvement in energy efficiency

INDICATOR 7.3.1 Energy intensity measured in terms of primary energy and GDP

Energy intensity level of primary energy (megajoules per constant 2011 purchasing power parity GDP) EG_EGY_PRIM

TARGET 7.a By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology

Sustainable Development Goals / INDICATOR 7.1.2 Proportion of population with primary reliance on clean fuels and technology

Proportion of population with primary reliance on clean fuels and technology (%) EG_EGY_CLEAN

UNITED NATIONS ENVIRONMENT PROGRAMME (UNEP)

Goals being addressed by UNEP regarding the SDG indicators during 2017-2019

UNEP is the custodian agency for 28 indicators in the global indicator framework for the SDGs and participates as a partner agency in 56 indicators, being involved in the measurement aspects of 84 indicators that are distributed throughout much of the SDGs. At the regional level, UNEP has worked with countries to define two basic sets of indicators to measure progress on the environment. Additionally, UNEP strengthens the capacities of the countries' environmental statistics teams to produce environmental statistics for the national report on the environmental dimension of the SDGs, with an emphasis on capacity building for the development of Environmental Economic Accounts and integration of geospatial and statistical data.
