# Session 4: Data disaggregation and leaving no one behind

Compilation of existing tools and resources for data disaggregation

Ms. Heather Page, UNSD

Workshop on Preparing Evidence-based Voluntary National Reviews for 2021 HLPF

18-19 January 2021

Compilation of existing tools and resources for data disaggregation

- Since 2015, the **Inter-Agency and Expert Group on SDG Indicators (IAEG-SDGs),** tasked to develop and implement the global indicator framework for the Goals and targets of the 2030 Agenda, has included work on data disaggregation in its annual activities.[1]

- The IAEG-SDGs developed **a stock-taking questionnaire to identify existing methodologies, guidelines and tools specific** for data disaggregation that have already been developed and agreed by key expert/international groups, mechanisms and committees.

- The participants included established city and expert groups under the UNSC, international expert groups and committees, as well as UN agencies and stakeholders **focusing on vulnerable populations, disaggregation dimensions and data collection methods** (i.e. household surveys, etc.).

Compilation of existing tools and resources for data disaggregation

- **Current version includes tools and resources on data disaggregation for:**
  - Women and girls
  - Children
  - Older persons
  - Migrants
  - Refugees and Internally displaced persons (IDPs)
  - Persons with disabilities
  - Geographic location
  - Other/Multiple dimensions

- **Full compilation will be available on the IAEG-SDG website by the end of January 2021 at the following webpage: https://unstats.un.org/sdgs/**

Statistics Division

Highlights of some of the existing tools and resources on data disaggregation

Women and Girls

- **UN Women:** https://data.unwomen.org; e-learning, framework and implementation guidelines, methodological guidelines for assessments during COVID-19

- **Social and Gender Statistics Section, UNSD- Secretariat of the IAEG-Gender Statistics and Expert Group on Time-Use Statistics:** Integrating a Gender Perspective into Statistics; Modernization of the production of time-use statistics; methodological work, descriptive analyses and dissemination of gender statistics, time-use statistics. E-learning: https://unstats.un.org/edge/e-learning/

- **FAO:** http://www.fao.org/3/ca9110en/ca9110en.pdf; disaggregation of indicator 2.1.2 by gender

- **UNICEF:** Strengthening administrative systems to close gender data gaps; measurement frameworks, intersectional analysis

Highlights of some of the existing tools and resources on data disaggregation

Children

- **UNICEF:** https://data.unicef.org; guidance on filling data gaps on children in the SDGs, measuring and monitoring child poverty, recommendations for data collection and surveys

Older Persons

- **HelpAge International:** Developing an indicator-based framework for monitoring older people's human rights; guidance on data collection, recommendations on ageing-related statistics

DESA | **Statistics Division**

Highlights of some of the existing tools and resources on data disaggregation

Migratory Status

- **Global Migration Data Analysis Centre (GMDAC), International Organization for Migration (IOM):** Migration and the 2030 Agenda: A Guide for Practitioners; practical guidelines on how to disaggregate SDG indicators and other data by migratory status (project webpage), capacity building tools, migration data modules, data capacity building tool dedicated to gender and migration

- **Social and Gender Statistics Section, UNSD-- Secretariat of the Expert Group on Migration Statistics:** Toolkit to assess national migration data capacity (2019); Standard set of migration questions for censuses and surveys (2019); Technical report on measuring migration-relevant SDGs, handbook on measuring international migration, standard set of migration questions for censuses and surveys

Highlights of some of the existing tools and resources on data disaggregation

Refugees and Internally Displaced People (IDPs)

- **Expert Group on Refugee and IDP Statistics (EGRIS), United Nations High Commissioner for Refugees (UNHCR):** International Recommendations on Refugee Statistics (IRRS); International Recommendations on IDP Statistics (IRIS); Compilers' Manual; Guidance on data collection, processing, analysis and dissemination

- **Joint Data Center on Forced Displacement, World Bank-UNHCR:** Data disaggregation of SDG indicators by forced displacement; guidance material for national household surveys that include forcibly displaced persons (refugees, IDPs, etc.) covering survey design, data collection, data analysis and dissemination

- **Joint IDP Profiling Service (JIPS):** JIPS Tools & Guidance; guidance, checklists and templates, sampling guide, e-learning, analysis abd reporting tool platform

Highlights of some of the existing tools and resources on data disaggregation

Persons with disabilities

- **Washington Group on Disability Statistics:** Question sets for population and housing censuses/household surveys (webpage); WG/ILO Labor Force Survey Disability Module (LFS-DM); WG/UNICEF Child Functioning Module; disability data collection and analysis training tools, training videos and workshops/webinars

- **Sensory Functions, Disability and Rehabilitation Unit, World Health Organization (WHO):** Model Disability Survey (MDS) (with the World Bank)- survey tool to collect disability and functioning data at the population level

- **Stakeholder Group of Persons with Disabilities:** Disability Data Advocacy Toolkit; E-learning; case studies, disability data advocacy working group, presentations and webinars

- **UNICEF:** Collecting Data on Child Disability; Producing Disability-Inclusive Data; implementation tools and reports of MICS surveys (webpage); training videos

Highlights of some of the existing tools and resources on data disaggregation

Geographic Location

- **UN-Habitat:** Guidance material; spatial data collection guidance, city definitions guide, slum definition

- **UN-Global Geospatial Information Management (UN-GGIM):** The Global Statistical Geospatial Framework; geospatial disaggregation, SDG geospatial roadmap, workshops and dedicated sessions on disaggregation, geospatial community and COVID-19

Other/Multiple Dimensions

Human Rights-based approach

- **OHCHR:** A Human Rights-Based Approach to Data: Guidance Note to Data Collection and Disaggregation; International human rights standards and recommendations relevant to the disaggregation of SDG indicators; including other documents focused on additional population groups (see here)
