

Open Consultation on Proposals Received for the 2020 Comprehensive Review

Organized by the Inter-Agency and Expert Group on Sustainable Development Goal Indicators

6 August - 8 September 2019

* Required

Rationale and Instructions for the Open Consultation

The Inter-Agency and Expert Group on Sustainable Development Goal Indicators (IAEG-SDG) is conducting an open consultation on proposals it is considering as possibly including in the 2020 Comprehensive Review and is seeking the global community's comments on these proposals.

The 2020 Comprehensive Review was mandated by the General Assembly in resolution 71/313 and serves as an opportunity to review the global indicator framework and make improvements. The IAEG-SDG laid out a detailed timeline for the 2020 Comprehensive Review at its 9th meeting in Beirut in March 2019 (<http://bit.ly/2020ReviewPresent>) that also included specific criteria for any indicator proposals that would be considered. Following this meeting, the group then launched an open call for proposals to be considered in the Review. The compilation of the 2020 comprehensive review proposals received is available on the 2020 Comprehensive review webpage (<https://unstats.un.org/sdgs/iaeg-sdgs/2020-comp-rev/>).

The IAEG-SDG has spent much of the past month reviewing these proposals and has developed a list of proposals on which it seeks the input of the global statistical community and this consultation is the opportunity for all interested parties to provide their inputs on these proposals.

The proposals put forth in this consultation take five forms: replacements of existing indicators, revisions of existing indicators, additional indicators, deletions of existing indicators, and in a few cases, requests for proposals for replacing existing indicators where methodological progress or data collection efforts have stalled.

Proposals are divided by Goal, with each Goal having its own section in the consultation. There is no expectation that any individual contributor would provide inputs on all the proposals in this consultation. At the bottom of each page, you can toggle between goals to provide inputs on only those goals that match your interest/expertise.

Please note: There are no proposals for Goals 6 and 9

A PDF version of this form is available at: <http://bit.ly/2020ReviewConsultationForm> for use in reviewing all proposals included in the Open Consultation and in compiling and coordinating responses across organizations.

Two additional documents are available on the 2020 Comprehensive Review Website:

1. A compilation of all the proposals included in the open consultation – <http://bit.ly/2020ReviewCompilation>
2. A list of the current global indicator framework color-coded to indicate where there are proposals for revisions, replacements, additional indicators and deletions - <http://bit.ly/2020ReviewIndicators>

IMPORTANT NOTE: The inclusion of a proposal in this open consultation does not mean that the IAEG-SDG plans to include it in the package of indicators to be submitted to the United Nations Statistical Commission. The IAEG-SDG is requesting inputs from the global statistical community to assist in its deliberations and no decisions (tentative or definitive) have been made on any of the proposals included in this consultation.

For each proposal, the IAEG-SDG invites you to respond whether you believe the proposal should be included in the set of proposals included in the 2020 Comprehensive Review and then asks for any comments you have on the proposal. Links are provided to narratives and metadata provided by the custodian agency for most proposals.

If you submit a proposal for a replacement indicator (in the select cases where such replacements are requested), please make sure the proposal has an agreed methodology and data available. Submitters of these proposals should email metadata (using the metadata template accessible at: (<http://bit.ly/Metadata-Template>) and a 1 page narrative explaining the rationale for the indicator and how the methodology was approved as an international standard to Benjamin Rae (raeb@un.org). Indicator proposals for which this additional documentation is not received will not be considered by the IAEG-SDG.

The IAEG-SDG will compile and review these comments and proposals, and it will proceed to make further decisions on the proposals to be included in the 2020 Comprehensive Review. A revised set of these proposals would then be presented and discussed at the 10th meeting of the IAEG-SDG in Addis Ababa, Ethiopia in October 2019. Following this meeting, the final list of proposals would be agreed upon and submitted to the United Nations Statistical Commission for consideration at its 51st session in March 2020.

If you encounter and problems using this form or have any questions on the open consultation, please contact Benjamin Rae (raeb@un.org).

Thank you for collaborating in this consultation

Goal 1: End poverty in all its forms everywhere

This section includes proposals for replacement, revision, additional and deletion of indicators in Goal 1

Target 1.4: By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance

Indicator 1.4.1: Proportion of population living in households with access to basic services

Revision of Indicator 1.4.1 Proposal: Revise metadata so indicator no longer measures access to "basic drinking water and sanitation services" but to "drinking water and sanitation services"

Link to supporting documentation: http://bit.ly/1-4-1_Revision

8. Do you support a revision of the metadata as proposed be included in the 2020 Comprehensive Review?

- Yes
- No

9. Please provide any comments you have on this proposal:

Target 1.a: Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions

Indicator 1.a.1: Proportion of domestically generated resources allocated by the government directly to poverty reduction programmes

Indicator 1.a.2: Proportion of total government spending on essential services (education, health and social protection)

Indicator 1.a.3: Sum of total grants and non-debt creating inflows directly allocated to poverty reduction programmes as a proportion of GDP

Replacement of Indicator 1.a.3 Proposal: "Total official development assistance (ODA) grants from all donors that focus on poverty reduction as a share of the recipient country's gross national income"
