

The 15<sup>th</sup> Population and Housing Census of Turkey is undertaken in October-November 2011. It is the first that the census is conducted based on combined methods including the use of population registers in combination with a large-scale household survey and complete enumeration of the institutional places. The field work for the household survey (around 2.4 million households) and institutional places is taking place from 2 October to 30 November, 2011. It is planned that the results of 2011 census will be announced in November 2012.
