

**United Nations Sub-regional Workshop on Census Data Evaluation
14 – 17 November 2011
Phnom Penh, Cambodia**

The Workshop was organized by the United Nations Statistics Division (UNSD), in collaboration with the Cambodia National Institute of Statistics. It was attended by 19 representatives from National Statistical Offices (NSOs) of 6 countries (Bangladesh, Cambodia, Lao People`s Democratic Republic, Myanmar, Timor-Leste, Viet Nam) in South East Asia and two experts from Japan International Cooperation Agency (JICA).

The workshop constitutes an activity of the Development Account Project on Building Statistical Capacity in the Countries of Southeast Asia. The purpose of the Workshop was to strengthen the technical capacity of the participating countries to evaluate the quality of census data based on application of demographic techniques and in comparison with other data sources such as an earlier census, sample surveys or available administrative registers. This workshop also provided a forum to discuss possible types of errors in census data according to experiences and lessons learned among the participating countries.
