

**Quality of vital statistics obtained from civil registration**

<b>I. Basis of tabulation</b>	Live births	Deaths	Infant deaths	Late foetal deaths	Marriages	Divorces
Present basis of tabulation:						
- date of occurrence	x	x	x		x	
- date of registration	x	x	x	x	x	x
How long has the present basis of tabulation been used?	since 1984	since 1984	since 1984	since 1984	since 1984	since 1984

<b>II. Estimated completeness of registration</b>	Live births	Deaths	Infant deaths	Late foetal deaths	Marriages	Divorces
100 per cent						
90 - 99 per cent	x	x	x			
80 - 89 per cent						
70 - 79 per cent						
60 - 69 per cent						
50 - 59 per cent						
Under 50 per cent						
Please specify:						
(a) Year(s) to which completeness estimate refers	2015					
(b) Basis of completeness estimate						
-Demographic analysis	x	x	x			
-Dual record check	x	x	x			
-Questions in population census	x	x	x			
-Questions in sample surveys						
-Other (specify)						
-No evaluation				x	x	x

Please include any reports describing completeness of registration and methods used in arriving at estimated completeness:

**Quality of vital statistics obtained from other sources**

<b>Basis of vital statistics estimates is</b>						
- Population censuses (date)	x	x	x			
- Sample surveys						
- Population registers						
- Dual record systems	x	x	x			
- Other (specify)						

Please include any reports describing the methods used for estimates of vital statistics based on other sources than civil registration:

**Additional metadata for selected tables**

**Table 1.1 - Urban / rural definitions**

Please state the definition used for urban area and the period of time it has been in use:	In the urban situation, urban or urban areas were considered to be within the urban perimeter of the cities (municipal headquarters) or villages (district headquarters) or isolated urban areas, as defined by municipal law in force on July 31, 2010. For the City or village where there was no legislation regulating these areas, an urban perimeter was established for census collection purposes, the limits of which were approved by the local mayor.
Please state the definition used for rural area and the period of time it has been in use:	The rural situation covered all areas outside these boundaries. This was the criterion used in the classification of the urban and rural population

**Table 1.6 - Grounds for legally induced abortion**

<i>Please mark with an "X" the applicable options</i>	X	
a) Continuance of pregnancy would involve risk to the life of the pregnant woman greater than if the pregnancy were terminated.		
b) Continuance of pregnancy would involve risk of injury to the physical health of the pregnant woman greater than if pregnancy were terminated.		
c) Continuance of pregnancy would involve risk of injury to the mental health of the pregnant woman greater than if pregnancy were terminated.		
d) Continuance of pregnancy would involve risk of injury to the mental or physical health of the pregnant woman greater than if pregnancy were terminated.		
e) There is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped.		
f) Other, please specify.		

**Tables 14a, 14b, 15a and 15b - Life tables**

Do the life tables refer to de Facto population or de Jure population?	De Jure
Was any method used to smoothen the life table? Which one?	None, the standard of mortality provided by vital records is accepted
Was any specific method used to close the life table at older ages (e.g., Gompertz, Makeham, etc.)? Which one?	
If any model life table or relational model was used to derive the life table (e.g., Coale-Demeny West, UN South Asian pattern), what model was used?	For the calculation of infant mortality to the method of surviving children is used West model.
<i>Please mark with an "X" the applicable options</i>	X
What source of data was used to compute the life tables?	

a) Unadjusted vital registration deaths		
b) Adjusted vital registration deaths	x	
c) Information on deaths from census	x	
d) Life expectancy at birth		
e) Under-five mortality		
f) Infant mortality	x
