

Quality of vital statistics obtained from civil registration

I. Basis of tabulation	Live births	Deaths	Infant deaths	Late foetal deaths	Marriages	Divorces
Present basis of tabulation:						
- date of occurrence	2	15	19		25	
- date of registration	1.5, 3, 4, 6a, 8a, 9, 10, 12, 13	1.3, 14a, 14b, 16, 17a, 17b	1.4, 20	x	All except 25	x
How long has the present basis of tabulation been used?	At least three years	At least three years	At least three years	At least three years	At least three years	At least three years

II. Estimated completeness of registration	Live births	Deaths	Infant deaths	Late foetal deaths	Marriages	Divorces
90 per cent or more	x	x	x	x	x except for 2004	x
75-89 per cent						
50-74 per cent						
Under 50 per cent					2004	
Please specify:						
(a) Year(s) to which completeness estimate refers						
(b) Basis of completeness estimate						
-Demographic analysis						
-Dual record check						
-Questions in population census						
-Questions in sample surveys						
-Other (specify)					Registrations were sampled	
-No evaluation						

Quality of vital statistics obtained from other sources

Basis of vital statistics estimates is						
- Population censuses (date)						
- Sample surveys						
- Population registers						
- Dual record systems						
- Other (specify)	State Registrars of Births, Deaths and Marriages	State Registrars of Births, Deaths and Marriages	State Registrars of Births, Deaths and Marriages	State Registrars of Births, Deaths and Marriages	State Registrars of Births, Deaths and Marriages	State Registrars of Births, Deaths and Marriages

Please include any reports describing completeness of registration and methods used in arriving at estimated completeness:
