

26. Cultivated assets

During the System of Economic and Environmental Accounts discussions, it was agreed that the present definition of cultivated assets in the SNA is ambiguous. Should the SNA's definition be tightened as follows: "cultivated assets cover livestock for breeding, dairy, draught, etc. and vineyards, orchards and other trees yielding repeat products *whose natural growth and regeneration* is under the direct control, responsibility and management of institutional units"? The words in bold italics replace the words "that are" in the SNA.
