### **Comments on Volume 1 of the updated 1993 SNA**

Dear Mr. Havinga,

As a member of the European System of Central Banks (ESCB) and the European Committee for Monetary, Financial and Balance of Payments statistics (CMFB), Danmarks Nationalbank's comments and views has continuously contributed to the European input into the current revision and drafting process.

In this regard, we fully support the coordinated European comments on Volume 1 of the updated 1993 SNA.

Furthermore, we have no particular preferences regarding the title of the update.

Yours sincerely

Tue Mollerup Mathiasen  
Head of Division, Statistics
