I would recommend to combine the tables 14.1 and at least the first part of 14.5. It should be explained more clearly whether balance of primary incomes is 1854 or 1883.
In 14.23, the equation should be corrected on $1854=762+459+442+191$, i.e.
Compensation of employees should not contain compensation payable by non-residents.

2. Section D mentions the need to present the accounts in time series format.

3. Section E describes the place of volume measures in the accounts.

4. Sections F to I describe briefly other possible dimensions to the accounts.

5. Section J describes alternative presentations of the accounts.

I have not found Section J. Probably Section I should have been mentioned instead.
