

Updated System of National Accounts 1993 - Comments on an annex to chapter 6 and on chapter 20

Comments on an annex to chapter 6:

It seems questionable whether the annex to chapter 6 (practically approved by Statistical commission in Volume 1 of revised SNA 1993) should refer to chapter 20, which will be a part of not yet approved Volume 2.

In 6A.2 in enumeration of cost kinds should probably be given also consumption of fixed capital, taxes on products less subsidies on products.
