This template allows you to record your comments on draft SNA chapter 25 “Informal aspects of the economy” and, at the same time, makes it easy for us to use your comments in considering revisions to the draft chapter. You may complete any or all parts of the template.

There is no file comparing existing text with draft text for this chapter because there is no equivalent chapter in the 1993 SNA.

## Part II: Comments on specific draft paragraphs and sections

All comments on specific draft paragraphs are welcome. They can be about e.g. scope, content and clarity. Proposing a concrete alternative text or table is also possible. For the paragraphs in separate sections, separate forms are used for providing and collecting comments (see below).

### A. Introduction (paragraphs 25.1-25.13)

### B. Characteristics of units in the informal economy (paragraphs 25.14-25.23)

General comment	This section does not seem to fit well with the other sections in the chapter. In particular, it does not establish linkages to the ILO classifications described in section D, which is the primary recommendation of the chapter. Much of the section seems like a digression, talking about various criteria that might be used to identify the informal sector, but which, in fact, are not used by the ILO definitions. Consequently, our readers found it difficult to understand what are the main points that should be taken away from this section and suggest that it might be condensed without much loss to the message of the chapter as a whole.

### Part III. Other specific comments

You are welcome to make other specific comments. To assist you in doing so, the following points are provided as a guide to the types of points on which you might wish to comment. Note, though, that you are not restricted to commenting on only these points.

1. Is the description of the non-observed economy (NOE) and “exhaustiveness” sufficient given the existence of manuals devoted to the subject?
2. Is the concept of the “informal sector” as defined by the ILO clear?
3. Is the definition of informal employment clear and sufficient?
4. Are the suggestions in section G to identify the units of interest sufficiently clear?
5. Do you have any comments on the data collections descriptions in section H?
6. Are there any other references you think should be added to the last section?
