

### 3.i Items for discussion and decision: Statistics of drugs and drug use

Page/Paragraph	Contents	Comments/Suggestions
-	-	<p>Data is not available. In SPHPN (National Women’s Life Experience Survey) 2016 there was question about habits of husband/spouse on consuming cigarette/alcohol/drugs. But it was only aim to assess the background of husband/spouse as person who act violence, not specifically aim to address statistics of drugs. In the future, to put this question in Susenas/National Household Survey (Core or Module) would be possible.</p>
