UN STATISTICAL COMMISSION 48TH SESSION
ITEMS FOR INFORMATION AND DISCUSSION

Statistical Commission

Forty-eight session 7-10 March 2017

Item 4 (c) of the provisional agenda

Items for information: HEALTH STATISTICS

Mongolia supports fully the report of the UN Statistical Commission to introduce Assembly 48 International Classification of upgrading the United Nations Statistical Commission health measures taken in the statistical and SDG's assessment related to health and disease.

Comments

- There is several health related SDG indicators, which have not internationally accepted methodology yet. For these indicators, concepts, definitions, and estimation methodology needs to develop. Namely, 3.9.2 Mortality rate attributed to unsafe water, unsafe sanitation and lack of hygiene, 3.b.1 Proportion of the population with access to affordable medicines and vaccines on a sustainable basis and 3.b.2 Total net official development assistance to medical research and basic health sectors needs to be determined.
- NSO will collaborate with the Ministry of Health on implementation of International classification of diseases (ICD-11), once WHO approves it.
