

4.k Items for information: Statistical capacity-building

Page/Paragraph	Contents	Comments/Suggestions
Page 2/ Point 3	... the capacity building efforts of Statistics Division focused on two key areas: (i) strengthening the national statistical capacities to measure, monitor, assess and report on progress toward achieving the SDGs, and (ii) enhancing modernization of NSS, taking into account recommendations of the Statistical Commission on data revolution and the use of new technology and big data for official statistics..	In enhancing NSS in developing countries one of the biggest challenges is how to create and increase the awareness, capabilities and willingness of all government agencies/institutions to produce statistics which meet a certain quality standards so that it can be used as official statistics.
Page 3/ Point 6	The breakdown events presented in five broad categories	It would be better to also held some events attended by non-NSO agencies to discuss things related to official statistics and national statistical system.
Page 10-12/ Point 44	Below are the main conclusions and recommendations of the evaluation	It is clear that we need to have a strategy to involve all agencies/institutions (led by NSO) in the country to create such a strong national statistical system so that everyone of them will be able to positively contribute to the production of high-quality official statistics.
