

The measurement of Globalisation in Economic Statistics

Tuesday, 7 March 2017

**Mariana Kotzeva,
Acting Director-General, Eurostat**

European
Commission

Better cooperation and proactive approach at all levels needed:

Between countries

- Bilateral or multilateral
- International institutions to facilitate

Within countries

- Between different institutions
- Better access to administrative data

Within statistical offices

- Between business statisticians and national accountants

European
Commission

IMPORTANT

**Big picture: Structuring cooperation
(frameworks and procedures)**

but also making progress on individual cases

Confidentiality - an important issue

Better communication with users
