-	-	<p>1. In the end of 2018, UNSD has published a revision to COICOP 2000. This revision (COICOP 2018) bring minor changes in some division while major changes attributed to other division especially COICOP 8 (information and communication). This revision need to be implemented to update basic heading CPI for HFCE.</p> <p>2. In developing countries especially Indonesia, HH purchase for goods and services is ranging from traditional to modern market, while in the advance economy would rely on modern retail. Regarding the ICP publication level, this condition make the estimation of Households net purchase abroad will be cumbersome for the former.</p>
