

**Comments/Suggestions for Statistical Commission 50th Session  
New York, March 2019**

**4(g) Items for information: common open standards for the exchange and sharing of data and metadata**

File/Page/Par.	Contents	Comments/Suggestions
2019-29-SDMX-EE/Page 4/Par.17-18	<p><b>18.</b> Eurostat has continued to upgrade the SDMX tools it develops and maintains. In particular, Eurostat's SDMX Converter and SDMX Structural Validation services have extended their support of various formats such as Excel, fixed length record formats and SDMX-CSV, while Eurostat's Euro-SDMX Registry has improved its support of more experimental SDMX features such as Structure Sets and Data Registrations.....The Eurostat tools are available as open source.</p>	<p>Statistics Indonesia has developed a system of metadata: <a href="https://sirusa.bps.go.id/sirusa/">https://sirusa.bps.go.id/sirusa/</a></p> <p>But, we still need technical assistance to convert current metadata to SDMX metadata and to have SDMX converter software.</p>
