

Task Team in capacity building

Amina Khasib

Palestinian Central bureau of
statistics

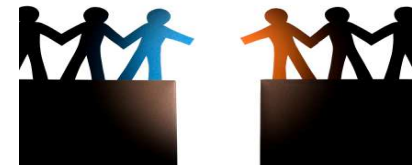

Task team on Capacity building

Team Leader: Palestine

Members: Japan, South Africa, UNSD, EUROSTAT,
OECD

Mandate

- Reducing the Gap between countries

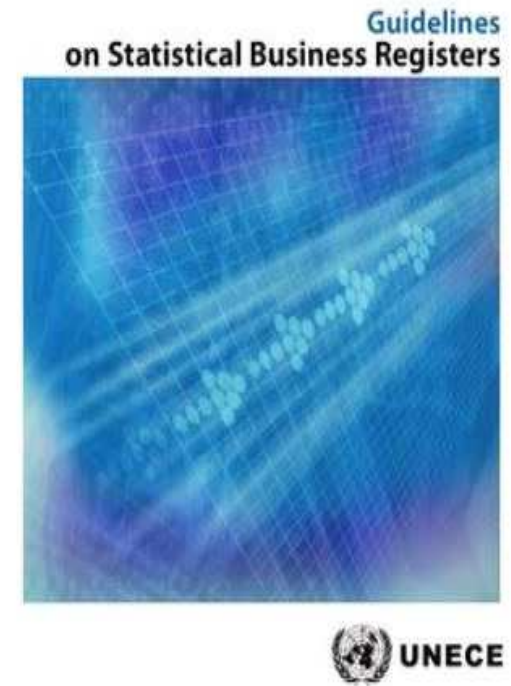

- Integrate the efforts in conducting assessments, developing guidelines or training materials
- Sound methodologies and good practices in national statistical offices for the establishment, maintenance and improvement of the SBR.

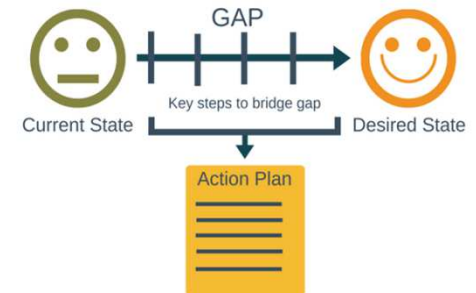

Needs for new conceptual and classification schemes

- Guidelines on SBR and the Wiesbaden group efforts solve the most topics (ideal practices)
- Most countries don't meet the minimum requirements, this will open new needs to develop methodologies to meet the particularities of different countries.

- The task team will use the assessment in developing new innovation tools to answer the needs of those emerging countries.
- Try to identify the special needs for those countries and propose a list of activities to build the capacities of human resources.
- Several scenarios can be found: weak legal legislation, good environment to start but lack of qualified human resources...etc.

Work plan

Global Assessment

- Conduct a global assessment on the status of implementation on SBRs in countries
- Review available assessments progress reports done by WG (53 countries) in 2016, 2018 and multilateral banks report.

Identifying priority areas

- Classification of the countries according to specific criteria
- identifying the priority areas for capacity buildings
- Selecting countries to be Pilot

Identifying available tools

- Pilot countries will be a basis for developing training tools and materials
- Countries with different cases will be selected.

Deliverables and Timing

Comprehensive assessment (Mid 2019)

List of priorities for capacity building by each pilot country (End 2019)

Case studies of some countries for capacity buildings (Mid 2020)

Capacity building materials and tools, end 2020

A strategy to promote the benefits of SBR to be used as advocacy in countries (Mid 2020)

Quality assurance framework with regard to SBR to be used by countries for self assessment (end 2020)

Thank you
