

Task Team Exhaustive Business Registers

Statistical Business Registers are the backbone for producing economic statistics that meet the increasing demand for better integrated, coherent and comparable statistics across countries and statistical domains.

An inclusive and exhaustive Statistical Business Register becomes increasingly a more important element of the statistical infrastructure for maintaining the relevance, responsiveness and quality of economic statistics for measuring the structure and dynamics of economic activity.

Focus

The Task Team Exhaustive Business Registers will cover various areas of work:

- developing guidance for the Statistical Business Registers to become
 - a) more inclusive and exhaustive in a rapidly changing economy; and
 - b) better tailored to statistical production
- providing advice and guidance to UNSD related to new global collection of business statistics
- providing advice and guidance to UNSD related to the development and maintenance of a global enterprise group register
