Prepared by Expert Group on Refugee and IDP Statistics (EGRIS)

# Expert Group on Refugee and IDP Statistics - Compilers' Manual E-version

Launch 20<sup>th</sup> February 2020

In companion with the Compilers' Manual, a SharePoint platform will be launched on the 20<sup>th</sup> of February 2020. In this platform, an e-version of the document will be available, which will enable users to access and comment on it. This platform will provide EGRIS with the possibility of further developing the document and adjusting it to according to users' feedbacks and inputs.

## Welcome to the Expert Group on Refugee and Internally Displaced Persons Statistics (EGRIS)

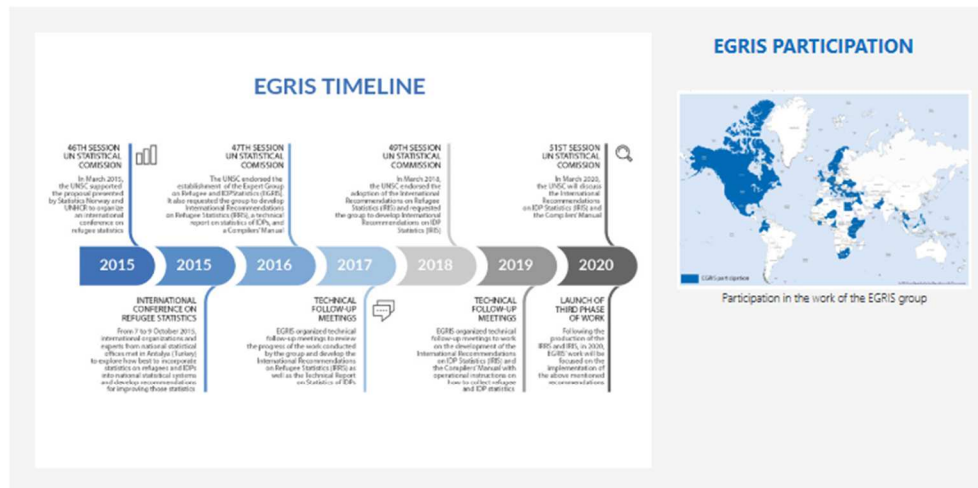

The Expert Group on Refugee and Internally Displaced Persons Statistics (EGRIS) was established by the United Nations Statistical Commission (UNSC), at its 47th session in 2016. The group consists of participants from national statistical authorities, international and regional statistical organizations and other technical experts.

The Expert Group was mandated to develop the International Recommendations on Refugee Statistics (IRRS), the International Recommendations on IDP Statistics (IRIS), and the Refugee Statistics Compilers' Manual, which aim at providing reference and guidance to national and international work concerning statistics on refugees, asylum seekers, and internally displaced persons.

This site will be used as a platform to share the materials developed by the Expert Group, with a special focus on the Compilers' Manual, as well as a communication channel in order to receive feedback and inputs to further develop the recommendations.

Access to the Compilers' Manual
