4. DISSEMINATION STRATEGY

- ❖ DATA DISSEMINATION

Data are disseminated monthly by means of *Releases on the trade of Montenegro* and *Monthly Statistical Review*.

Monthly data for a current year are considered preliminary since they are updated and corrected during the year.

Dissemination of data is also done annually by means of *Releases on the trade of Montenegro* and *Statistical Yearbook*.

Monthly data are final after the dissemination of the final annual data. Annual data are disseminated twice, first as preliminary (25 January) and then as final (31 March).

All the mentioned publications are downloadable on the website of MONSTAT, www.MONSTAT.org. Also, we have publications in paper format

Data base is in COMEXT. Data are disseminated by value (in EUR); by country and territory; by product; by special trade system.

For us all users have equally access for data.

4. DISSEMINATION STRATEGY

- ❖ DISSEMINATION OF METADATA

At the moment, we do not have dissemination of metadata. One of the plans is to prepare metadata for every survey and this year we have been working at the dissemination of metadata.

- ❖ INTERNATIONAL REPORTING

Each month, we send data to EUROSTAT by E/damis application.
