United Nations Group of Experts on Geographical Names

2025 session

New York, 28 April–2 May 2025

Item 5 (b) of the provisional agenda*

Technical expertise: Geographical names data management

Geographical names data management at the Central Agency for Public Mobilization and Statistics

Summary**

The report surveys the following activities of the Central Agency for Public Mobilization and Statistics:

- Use of geospatial information system applications to collect, update, document and manage geographical names in the Arab Republic of Egypt;
- Creation and update of integrated geospatial and statistical databases in support of the State's sustainable development and digital transformation efforts.

The report covers the national project to integrate the spatial information infrastructure of the Egyptian planning system, including the following:

- Integration of spatial data layers for government agencies;
- Establishment of a standardized base map for the national spatial data infrastructure;
- Standardization of geospatial standards, data interoperability and exchange of geospatial data between producers and users.

* [GEGN.2/2025/1](#).

** The full report was prepared by Eman Ahmed Oriby, Engineer, Central Agency for Public Mobilization and Statistics, Arab Republic of Egypt, Second Vice-Chair of the Arabic Division of the Group of Experts on Geographical Names. The report will be available under document symbol GEGN.2/2025/27/CRP.33, in the language of submission only, at https://unstats.un.org/unsd/ungegn/sessions/4th_session_2025/.
